A fresh graduate from diploma 3 of electrical and informatics engineering, a hard working person, energetic person, fast learner, and easy to adapting person. I have finished my diploma 3 with various academic and non-academic achievements and becoming one of the outstanding students. I really like to know new things, that's why really passionate with my final project during my college year. I am enthusiastic in all about my projects, analyst, critical thinking, and all the things that can improve my skills. I am currently very interested in joining as a software development in Mitrais Indonesia Company.
